AFR	Sarah Acio	Africa Regional	Program aimed at supporting selected policy and enabling environment initiatives to harmonize trade policies and standards, and support the enactment of the Food and Nutrition Bill to create a National Food and Nutrition Council. This will facilitate the policy formulation that strengthens the agriculture-nutrition forward and backward linkages, ensure integration of nutrition in MAAIF programs and enhance inter-sectoral coordination and collaboration. Project priorities will focus on legislative and implementation of policy reform to increase the effectiveness of public services delivered to the private sector that are linked to institutional and human capacity building.		\$4,000,001-\$10,000,000	Q2 FY2012	Other/TBD
AFR	TBD	Africa Regional	This capacity building intervention to be supported under the FTF program will involve the provision of assistance to the institutional support component of the Development Strategy and Investment Plan of the Ministry of Agriculture, Animal Industry and Fisheries (MAAIF). The component involves the implementation of a revised structure of MAAIF with several Departments being re-configured while others are established and some amalgamated. Staff levels will be revised accordingly and recruitment undertaken. The increase in staff levels will be underpinned by a robust staff development program involving both formal courses and on-the-job training and mentoring. More focused technical support will also be provided in order to develop the capacity of staff in both MAAIF and the Uganda Bureau of Statistics (as well as other sector-related bodies) in the areas of data collection, collation, analysis and publication, in order to provide information to decision-makers on the progress of the different interventions being supported under the FTF program and, more generally, on the progress being made by the agricultural sector.		\$4,000,001-\$10,000,000	Q2 FY2012	Cooperative Agreement
AFR	TBD	Africa Regional	A program to increase use of inputs, improve private sector extension & service provision, and decrease the cost of inputs through supply chain efficiency and better access for end users. Achievement of these objectives will result in increased household food security, increased levels of production and increased quantities of tradable agricultural commodities.		\$4,000,001-\$10,000,000	Q2 FY2012	Other/TBD
AFR	TBD	Africa Regional	The Partnership Investment Development Fund will provide venture capital to increase private sector investment in agriculture and the food beverages industry by a ratio of 1:3 Based on past experience it is anticipated that more than \$75 million will be leveraged from private sector resources through public-private partnerships and alliances, private sector IDEA and technologies to replicate, scale-up and sustain sector-wide impact in agriculture and nutrition. This program intends to use the Global Development Alliance (GDA) partnership and Development Credit Authority (DCA) loan guarantee models.		\$10,000,001-\$25,000,000	Q2 FY2012	Cooperative Agreement
AFR	TBD	Africa Regional	The program's intended beneficiaries include private-sector tourism operations, communities adjacent to key wildlife areas, and lead government agencies for biodiversity conservation such as Uganda Wildlife Authority (UWA) and National Forestry Authority (NFA). The geographic target areas for this program are the following conservation areas: Murchison Falls, Kidepo Valley and Lake Mburo. The intended results to be achieved by this program include the following: 1) Capacity to effectively manage Uganda's biodiversity increased; 2) Capacity to market Eco-tourism improved; 3) Benefits derived from biodiversity conservation activities accrued by communities living in and adjacent to protected areas increased.		\$1,000,001-\$4,000,000	Q2, FY2012	Cooperative Agreement

AFR	TBD	Africa Regional	Health Advocacy Program (HAP) to empower communities and strengthen advocacy initiatives that contribute to the improvements in health service delivery. HAP will be implemented in 15 selected districts which are part of the Missions' focus districts in USAID's Country Development Cooperation Strategy (2011-2015). The purpose of HAP therefore is to increase the citizens' voice for effective service delivery. This will be done through the following objectives: (1) Improving the capacity of communities to better identify and articulate their needs and their ability to demand for services. It is important that communities know and appreciate their role in service delivery and they regard themselves as part of the process as partners not just mere recipients. (2) Building the capacity of CSOs to advocate and represent the communities' demands for better services. CSOs will engage with the communities, the local government and the central government, and need to understand their role and how they can carry it out in a democratic and civilized manner. (3) Supporting CSOs' to influence decision makers for policy and programs through advocacy for those issues that directly affect people's health. The program will promote efforts that ensure that decision makers and service providers are held more accountable to the local communities and that working in partnerships they will ensure provision of quality essential services to the beneficiaries.		\$10,000,001-\$25,000,000	Q2, FY2012	Cooperative Agreement
